Suspension / Withdrawal

The Committee may decide, as a result of the meeting and having analyzed all aspects of the company under discussion, to suspend or revoke or withdraw the certification under any of the following non-compliance:

- At the administrative level (payment failure of the invoice)
- At the technical level (failure to follow procedures of HIA, failure to meet the requirements established by Halal certification)

Where a license is revoked or suspended, the company may no longer use the HIA logo and any other materials submitted for certification itself.
